\* The name of Andrew F. McRee, of Mecklenburg, No. 21, E. B. should have been inserted in the list of Students in the Junior Class.

THE CATALOGUES of the Students in the University of North-Carolina, heretofore published, have, like the present, exhibited the names of such only as were resident members of the Institution when they were sent to the press. The whole number matriculated in the course of the year, has always been considerably greater—last year, for example, it was greater in the proportion of 176 to 164. A statement of the numbers of the names upon the annual Catalogue, for a period of twenty years is sub-joined:

**SYSTEM OF STUDIES**  
**PREPARATORY TO ADMISSION**  
**INTO THE**  
**UNIVERSITY.**

---

APPLICANTS for admission into the Freshman Class, are required to sustain a satisfactory examination on the Grammar of the English, Latin and Greek Languages, including Latin Prosody; Mair's Introduction; Cæsar's Commentaries (5 Books); Ovid's Metamorphoses (Gould's Edition—extracts from the first six Books); Virgil's Bucolics and six Books of the Æneid; Sallust; Greek Testament (St. John's Gospel and the Acts of the Apostles); Græca Minora, or Greek Reader; Arithmetic (Emerson's 3d Part), and Worcester's Elements of Ancient and Modern Geography.

The importance of an earnest and full compliance with these requisitions, cannot be too strongly impressed upon the attention of Parents and Guardians. If they desire that their sons and wards shall attain sound scholarship, they must look well to the foundation on which the superstructure is to be reared.

Of the Preparatory Studies, the branches on which Candidates for admission into College are frequently found either wholly deficient or imperfectly prepared, are Arithmetic, Ancient Geography and Prosody.—The use of Emerson's Third Part, Worcester's Geography, with an accompanying Atlas, and Hooper's Prosody, is recommended to Instructors who are preparing Students for the University.

Composition and Declamation are attended to throughout the whole Collegiate course. Instruction in the Spanish language will be given to those who desire it. All the Classes are required to attend Divine Worship in the Chapel on Sunday, at 11 o'clock, A. M. and in the afternoon, to recite on the Historical parts of the Old and New Testaments.

The Classes (with the exception of the Senior) recite in two divisions, each division occupying an hour. Their recitations are consequently continued through six hours on four days of the week, and through four hours on Mondays. Saturday morning is devoted to the meetings of the two Literary Societies.

The instruction of the Freshman Class is confided principally to the Tutor of Ancient Languages and the Tutor of Mathematics. By the separation of the department of Ancient Languages into two branches, with a Professor to each, and the appointment of a Professor of Rhetoric, very ample means of instruction are afforded in these parts of the Scheme of Study, whilst the other Professors are at liberty to devote their attention more fully to their more appropriate duties and pursuits.

Instruction in Mental and Moral Philosophy, and Political Economy, as well as on National and Constitutional Law, is given by the President.

A regular course of Lectures, illustrated by appropriate experiments and the exhibition of specimens, is delivered to the Senior Class on Chemistry, Mineralogy and Geology, and occasional Lectures on the other departments of Natural History, by the Professor of Chemistry, to whom also, is assigned the duty of instruction in Civil Engineering.

The recitations of the Professor of Mathematics and Natural Philosophy, are illustrated by experimental Lectures with an apparatus selected by the late Dr. CALDWELL, during a visit made by him to Europe, some years since, for that purpose.

The College edifices have undergone extensive repairs, and additional improvements are in contemplation. Increased efficiency is believed to

have been imparted to the system of instruction; more attention is paid to neatness and comfort in the Police of the Institution; and energetic measures have been adopted to confine the expenses of Education within reasonable limits.

Board, of a quality not inferior to what is furnished at the Tables of the most respectable Boarding Houses of the villages of this and the adjoining Counties, is had at the Steward's Hall and elsewhere, at eight dollars per month. Besides the above expenses, there are those incident to a connexion with the Literary Societies, the amount of which is fixed by the private regulations of those bodies; and those incurred for books, and pocket money. The whole series of books, for the four years, may be purchased new, for between \$50 and \$60. It were to be desired that the Student should retain his TEXT BOOKS, and take them with him when he leaves College; but, as in many instances, they are procured at second hand, this item of expense is not, necessarily, considerable.

The Student is required on his arrival at the commencement of each Session, to deliver to the Bursar (Professor MITCHELL,) the monies and drafts for money he has brought with him. It is the duty of the Bursar to attend to the settlement of the demands and charges for Board, etc., to pay into the hands of the Student, such sums as are required for other current expenses as they may be called for, and to render an account of his proceedings to the Parent or Guardian at the close of the Session.—The Merchants in this place have entered into engagements that the system of unlimited credits heretofore in use, shall be abandoned, and that they will confine themselves in this particular, to the cases in which the Parent or Guardian has previously given a specific and definite sanction, and thus rendered the transaction his own. From the statements that are

detailed above, it will be seen what amount of money a young man is likely to require, and with the safeguards that have been provided, there is a reasonable security, if the regulations adopted by the Trustees are complied with, that there will be no disappointment in regard to the expence of an Education at the University. The Faculty concur in the opinion expressed upon this subject by the *Executive Committee*, in the Circular addressed to Parents and Guardians on the 15th of April, 1837, that exclusive of the supplies of clothing ordinarily obtained from home, more than two hundred and fifty dollars is not necessary to either the comfort or convenience of any one.

The Faculty are authorized in all cases, when the applicant is a native of the State, sustains a fair moral character, and upon examination, is believed to possess the requisite mental endowments, natural and acquired, and is unable to pay the Tuition Fees, to admit him into any Class, for which he may be prepared, without charge either for Tuition or room-rent.

### **THE ANNUAL COMMENCEMENT**

Is on the first Thursday in June.—Candidates for admission are examined on Wednesday, eight days previous.

*The Philanthropic and Dialectic Societies* alternately select one of their members to deliver an ADDRESS before the two bodies on the morning of the day preceding the COMMENCEMENT.

**The Senior Class** select annually a Graduate of the Institution to deliver an Address to the Alumni and to the Class, on the afternoon of the day on which the Address is delivered before the two Societies.
